STYLISH BATHROOM FOR ELEGANT LIFESTYLE

2024-2025

BATHROOM SOLUTION

The total bathroom solution originated in German precision craftsmanship

As an inheritor of professional design, the spirit of craftsmanship, excellence and European artistry, and a promoter of the minimalist philosophy of life, Innoci is famous for products that are fashionable and human-friendly. While ensuring hygiene, health and comfort, the company has established itself as a dedicated provider of personalized, multifunctional and integral bathroom solutions, always with a commitment to a more fashionable, elegant lifestyle.

A global brand known for outstanding quality

A long-established provider of quality and satisfactory products and services for many real estates, projects and designers around the world and a winner of high praises from the customers and consumers in international market, Innoci has built a sales/service network that extends to approximately 30 countries and regions worldwide.

Luxury bathroom time featuring vogue and individuality

innoci continues its' "minimalist and natural, stylish and elegant" design concept to deliver a simple, stylish, integrated bathroom space that satisfies the pursuit of a fashionable, elegant lifestyle. innoci is committed to the comfortable feeling and visual experience that today's customers want.

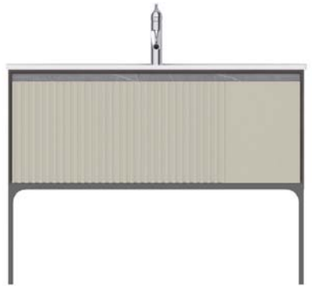
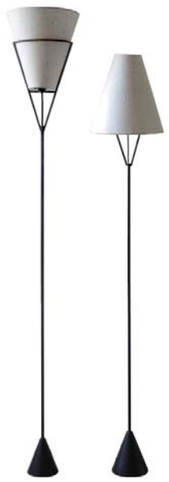
Artistic design & Functionality





The square design makes an ideal integration with the linear bathroom, wash basin, bathtub and even the toilet. Adding a whole new dimension to this popular design by introducing different sizes with widths of 600mm, 700mm, 800mm, 1000mm and 1200mm.

As natural and fresh log texture is added with modern and fashion elements the way nature is integrated into urban life, creating a warm and refined bathroom space for a new, natural wash experience.

Multilayer solid wood panel

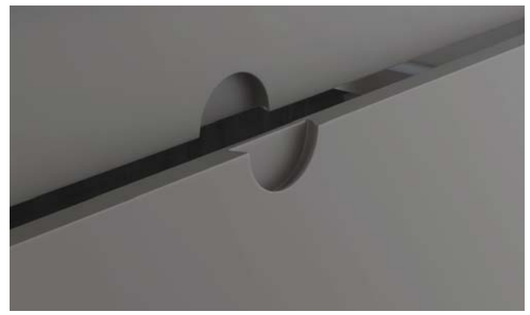
The plywood panels are made of 1-3MM thick cross-cross solid wood, which is not easy to deform, compact in structure and waterproof;

Good waterproofness

Thanks to the high panel density and excellent waterproof engineering, it has a low water absorption rate. Even when the water drops to the surface, it will slide down instead of seeping into the panel;

Eco-friendly raw materials

Nine layers of solid core board which complies with the E1 standard plus two layers of triamine veneer, with a thickness of 16mm and wood density. High strength, uneasy to crack, paint-free, and formaldehyde emission in compliance with the E1 standard.



Patton

Enhance the beauty of home with design

Durable and resistant to deformation. Considerate two-door inside drawer design for effective use of space; personalized combination cabinet to fit different using habits; reasonable classification and storage to make washing easy and comfortable.

Metal

This metal cabinet in a leisurely style matches the mood of a lazy afternoon.

With a unique slender waist as a design highlight, the toughness of metal is softened with a tender expression for the creation of a space that's warm and stylish.

NC2290W–1 600mm Basin
NP12624K Vanity

Hollow-core design for a balance of beauty and form

Hollowed-out metal imparts a friendly but industrial feeling. The collision of aesthetics and form balances the abrupt forms and beauty of the space, interpreting a distinctive design language.

Unfold line aesthetics

Slender lines and a square cabinet shape, coupled with the semicircular countertop basin, represent the best of today's fashionable bathroom space.

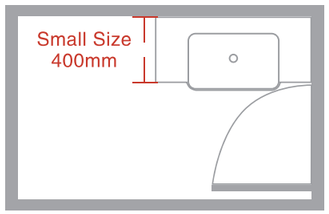
NC2285W–1 750mm Basin
NP12623K Vanity

Grüne

Natural and environmentally friendly, as if bathing in the forest

The "Grüne" series, with smooth streamlined line design, classic practical size planning and a design philosophy focusing on natural wood grains, blend nature into bathroom furniture, allowing space and nature to complement each other.

Integrated embedded table basin to tackle the issue of small bathroom insufficient space



Small bathroom space solutions

Simple Japanese style, self–colored to match various bathrooms. Dry and wet separation, ease of handling, large water capacity and a beautiful but practical appearance. it’s the best alternative to a marble or artificial stone countertop.

Bathroom storage plan

Two–door cabinet allowing options of touching down and wall hanging to meet the needs of different groups of people. Moisture–proof, environmentally friendly plates are safe and reliable, and the concealed double handles make opening and closing more convenient. The stainless–steel cabinet legs are durable. The addition of a mirrored cabinet allows orderly, partitioned storage.

Comes in many sizes, supporting variable combinations and collocations

The small storage trays can accommodate items of different dimensions. The integrated sintered washbasin is easy to be kept clean and shiny. Different bathroom cabinet sizes and functions are available to match various house types and needs. The multi-layered storage functions simplify the process of storage.

Large water capacity, function of overflow prevention on all sides

Integrated design of the undercounter basin with greater width and depth look especially majestic, breathing into the minimalist design a breath of pragmatism. According to the bathroom size, more than 600/700/800mm sizes are available for users to choose from.

Solid wood structure
It features superior, even texture and elegant veins, high hardness, and naturally high resistance to wear.

Water-proof treatment
Three-step waterproof treatment includes thirteen painting procedures, seven times of grinding, four courses of primer and two courses of top coat. Compared with the traditional painting process used for the furniture industry, the completely water-resistant surface is more suitable for damp bathroom environment.

Storage compartment at the side
The toilet cabinet at the side is at your fingertips, even for children.

Upgrade the internal drawer
Upgrade furnished with small units, equipped with pure wood separated parts, according to the objects in "one word", "cross" drag, meet all kinds of small items neat storage, say goodbye to the filthy.

High-quality wood
With optimal water content ratio, the natural solid wood ensures thickness swelling rate of water absorption lower than 8%, and permanent and durable modeling of the bathroom cabinet.

Aluminum alloy
Aluminum-honeycomb composite panels used in aerospace industry, undergoing special surface oxidation and laminating treatment, are free of discoloration and secondary oxidation. They're also 100% waterproof with easy-to-clean, multicolor surfaces that are waterproof and corrosion-resistant. They're strong but offer a fine feeling in the hand. They're recyclable too, thanks to the environmentally friendly "green" material.

Mirror cabinet

Huge storage space is designed into multi-layer compartments; inside and outside drawers are designed to hold miscellaneous articles; facing door plank of different styles can fit bathrooms of different decoration styles.

Remote control of intelligent technology

Flushing solution for power failuer

ENC2165GW-3
698X428X530mm

Auto & remote control seat cover

Self-cleaning, antibacterial glaze

Instantaneous heating of water

Warm Air : The warm air drying，make the warm air

Child Mode: Care for delicate skin

Bidet: Separate nozzle, clean and hygienic

Mixed air : Soften water flow with clean flush

Period Care: The warmest care for women

General: Personal cleanliness

Night- light: More convenience at night

SPA: To prevent and treat diseases with hot & cold washing

Reciprocating: Different position can be cleaned.

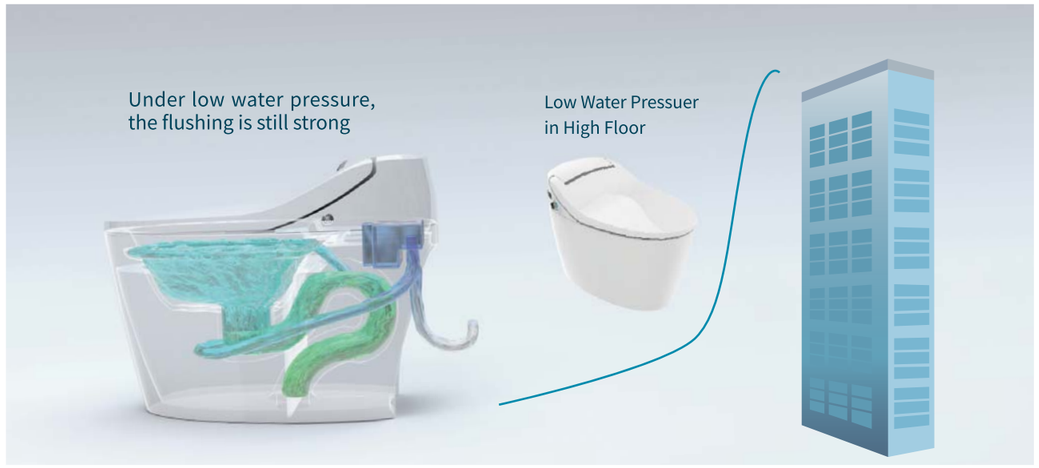
Heating seat

Intelligent all-in-one machine without water tank

The ultimate integration of technology and energy-saving environmental protection concepts, coupled with tank free design, with rotary button for flushing, remote control for single- and double-stage water-exit, remote control intelligent flip cover and other different functional models to meet users' needs.

ENC2165W-3
698X428X530mm

Nano easy-cleaning glaze free of any residual bacteria, making sewage more smoothly.Vortex siphon flushing, making cleaning and care more convenient.



Solutions for regions with a low water pressure

There is a power pump in the low water tank with foam disinfection function, which can meet the extremely low water pressure conditions (≥0.07Mpa).

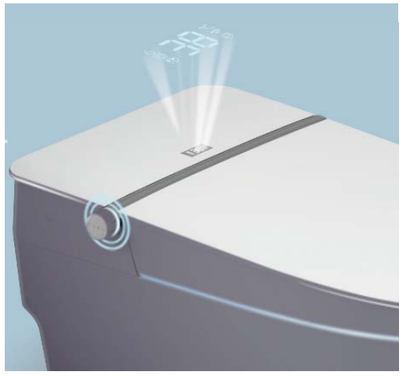
Natural and environmentally friendly, as if bathing in the forest

Rotate 360°to spray to create a layer of foams on the water seal of the toilet, which can effectively prevent water splashing, sticking, bacteria and odor. The foams can be kept for up to 6 hours, making the bathroom clean and healthy.

Splashproof | Antibacterial | Odor-resistant | Anti-sticking

Wireless remote control upgraded version, more sensitive

2.4G wireless remote control, easy to operate
Independently remote pairing to prevent false triggering



Digital display, man-machine interaction

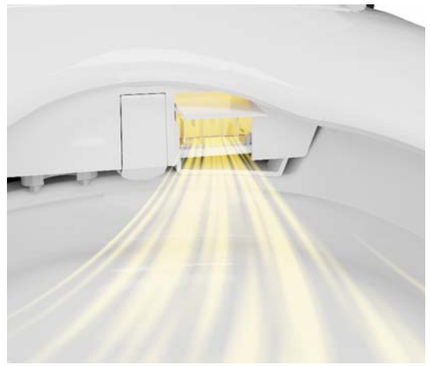
Monitor room temperature, water temperature, seat temperature and content of foam... in real time. The performance and conditions of the machine are clear at a glance.

Automatic flipping for convenient use and sanitation maintenance.

With built-in intelligent sensing device, the seat cover will automatically open when you are near.The lid will automatically close for flushing 15 seconds after you leave the toilet to avoid bacteria splashing and keep the toilet clean.

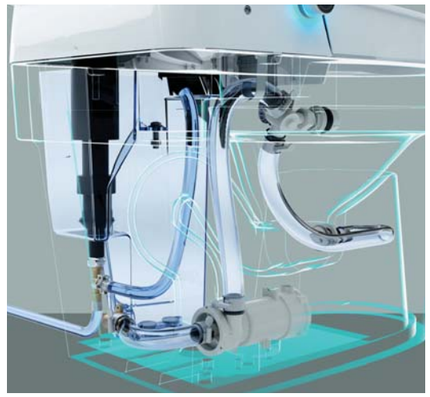
Seat cushion with intelligent temperature control to prevent low-temperature burning

A built-in temperature sensor is provided with 4 levels of temperature (0, 34, 36, 38, 40). VF temperature control, intelligent energy conservation.



Soft and warm-air drying system

Dry with warm air at a constant temperature after cleaning.
Dual activated carbon deodorization fan to prevent the odor from spreading to the bathroom



A new generation of power pump

Large pump power and ultrastrong flush away 20 simulated stools at a time.

Antibacterial seat

The antibacterial materials used can kill more than 99% of bacteria, which will effectively prevent the growth of bacteria. In addition to being strong and durable, it can also resist detergents. Silver ion antibacterial constituents are provided both below and above the seat ring.

Nano easy-cleaning glaze

Sintered at 1250°C, the nano glaze is gapless, flat and smooth, making it uneasy to absorb dirt.

Multi-color surface

At Innoci, besides surface treatment with chrome color, there are also other options such as matte black, titanium grey, gold sand and rose gold., etc.

Chrome C | Titanium Grey Q | Gold sand BG | Matte Black K | Rose Gold RG | Gold G

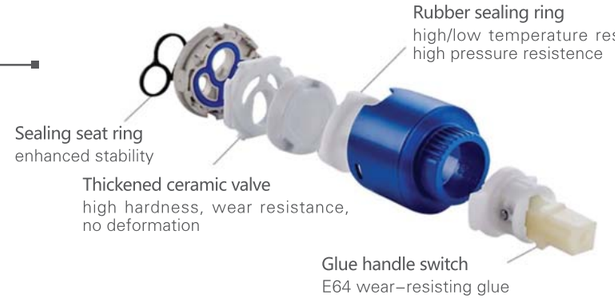
Innoci' s plated layers | Other brands' plated layers

Mirror-sided Plating Technology

Nickel-chromium surface plating technology (Ni ≥ 8um, Cr ≥ 0.25um) enables coated metal piece to effortlessly pass the 48 hour salt spray test and maintain its sheen even in humid bathrooms.

Lead-free Brass

Faucet for the system is made of lead-free copper of German standards. With content of precipitated lead lower than 5 μg/L and no lead detected in water, it complies with the strictest European and American standards and keeps water supply healthy.



Precision ceramic valve element;(Germany) precision copper valve element ; It has a service life of more than 500,000 times. Over 20 years for a normal household (50 times per day).

Neoperl aerator Oxygen-rich water-giving technology

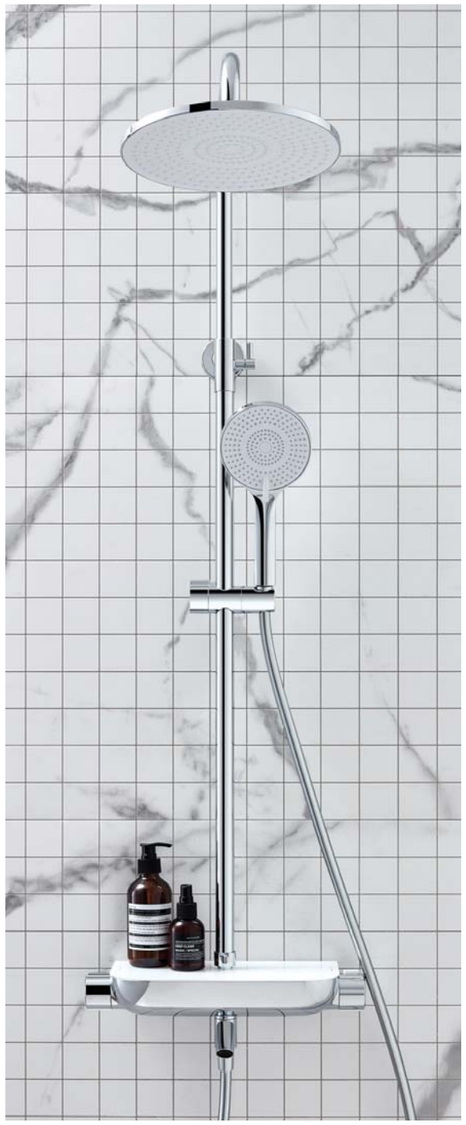
Rich-oxygen bubble, soft water giving

Innoci uses Swiss Neoperl bubbler, Quality honeycomb nozzle filtering impurity layer by layer; water giving with water and oxygen mixed, giving comfortable touch, while the gentle spray does not splash.

Water Saving Technology

Neoperl (Swiss) concealed bubbler, equipped with 6 layers of special honeycomb strains to filter dirt from water, ensures fine and smooth water supply and reduced splashing, capable of supplying water at a rate of 4-5 L/min. It is water conserving, environmentally friendly and easy to clean and maintain.

Thermostatic Control Showering



Thermostatic valve element for steady water flow

The constant water temperature and supply volume ensure that hot water doesn't suddenly pressurize and cause burns.

Thermostatic Control Showering

The user-friendly constant-temperature design results in adjustment of water modes on the right side and temperature control on the left side. If water pressure or temperature in the pipeline changes, the thermostatic faucet will automatically adjust the mixture of hot and cold water so as to ensure user comfort.

ND2242C

ND2253C

Intergrated shower set

Ultra thin, tempered glass panel, double handles in front, 135° wide-angle temperature control, switch and toggle combined, Independent switch for water to come out from the lower outlet, making water use simple and easy.
Coupled with multi-functional handheld sprinkler, Large area of water fully massages your skin to bring you a great shower experience. 0.4mm memory silicon pore size for fine water spray to prevent clogging and pressure boost and make you enjoy pulsating massage.

Rain Showers

NP7172K

High-elasticity memory silicone gel

Featuring excellent toughness and high temperature resistance, can remove dirt and reduce blockage, and keep water flow evenly and smoothly. All you need to do is give it a soft knead.

NP7098C

A multifunctional rain shower set includes one rain shower head (8" to 16") and a large handheld shower. the enjoyable feeling of a rain shower on a summer day.

Rain Shower

A multifunctional rain shower set includes one rain shower head (10" to 16") and a large handheld shower. Its external connection structure helps reduce construction time, and the clever combination of the tap and external shower head mimics the enjoyable feeling of a rain shower on a summer day.

The valve is made of DZR corrosion-resistant brass, ensuring that the water tap will be durable.

In-wall control

Effective protection: A pre-embedded box to prevent scratches or loss of related parts in the decorati on process, the faucet is found to be as new as before when officially used.

Convenient adjustment: The square box and built-in-level instrument provides convenient horizontal and vertical adjustment during installation while also saving on the time and cost of labor.

Easy maintenance: There's no need to tear down the wall when repairing the valve element in the future, so it's quick and convenient.

Clear identification: Clear identification of water inlet and outlet, together with adjustable installation depth, prevents installation errors and the need for repeated work.
