SMART CONTROL COMFORT AT YOUR FINGERTIPS

The innoci smart toilet series seamlessly integrates advanced technology with energy-efficient concepts to fulfill the demands of the modern bathroom. It provides users with a hygienic, comfortable, and aesthetically timeless experience. By enhancing sensor accuracy and incorporating low-energy standby technology, the series strikes a perfect balance between "technological sophistication" and "energy-saving sustainability." Features such as the smart temperature-controlled seat ring, multi-stage cleaning modes, and an electrolyzed water sterilization system transform every bathroom visit into an enjoyable and refreshing experience.

Intelligent cleaning technology
Free your hands completely

Automatic flipping for convenient use and sanitation maintenance.
With built-in intelligent sensing device, the seat cover will automatically open when you are near.The lid will automatically close for flushing 15 seconds after you leave the toilet to avoid bacteria splashing and keep the toilet clean.

Digital display, man-machine interaction
Monitor room temperature, water temperature, seat temperature and content of foam... in real time. The performance and conditions of the machine are clear at a glance.

Soft and warm-air drying system
Dry with warm air at a constant temperature after cleaning.
Dual activated carbon deodorization fan to prevent the odor from spreading to the bathroom

A new generation of power pump
Large pump power and ultrastrong flush away 20 simulated stools at a time.

Seat cushion with intelligent temperature control to prevent low-temperature burning
A built-in temperature sensor is provided with 4 levels of temperature (0, 34, 36, 38, 40). VF temperature control, intelligent energy conservation.

Rotate 360°to spray to create a layer of foams on the water seal of the toilet, which can effectively prevent water splashing, sticking, bacteria and odor. The foams can be kept for up to 6 hours, making the bathroom clean and healthy.

Antibacterial seat
The antibacterial materials used can kill more than 99% of bacteria, which will effectively prevent the growth of bacteria. In addition to being strong and durable, it can also resist detergents. Silver ion antibacterial constituents are provided both below and above the seat ring.

Nano easy-cleaning glaze
Sintered at 1250°C, the nano glaze is gapless, flat and smooth, making it uneasy to absorb dirt.

Solutions for regions with a low water pressure

There is a power pump in the low water tank with foam disinfection function, which can meet the extremely low water pressure conditions (⩾0.07Mpa).

Rotate 360°to spray to create a layer of foams on the water seal of the toilet, which can effectively prevent water splashing, sticking, bacteria and odor. The foams can be kept for up to 6 hours, making the bathroom clean and healthy.

Automatic flush toilet without water tank

Electromagnetic pressure boost, battery-driven without plug in. You will never worry about low water pressure. Eco-friendly design, saving 1/3 of ceramic materials and 30% of bathroom space. Provide a great solution for small houses. Using infrared sensing technology, it can automatically identify you and flush automatically after you leave. (It can also identify men's urination) Press to flush without bending down.

Twist

Break away from the traditional shape, enhance the visual effect

Geometric techniques are applied to create a feeling of fashion flow. By breaking the conventional visual impact and enhancing the functional needs of the bathroom, a relaxed and comfortable bathroom space is created.

Rain Shower

A multifunctional rain shower set includes one rain shower head (10" to 16") and a large handheld shower. Its external connection structure helps reduce construction time, and the clever combination of the tap and external shower head mimics the enjoyable feeling of a rain shower on a summer day.

The valve is made of DZR corrosion-resistant brass, ensuring that the water tap will be durable.

In-wall control

Effective protection: A pre-embedded box to prevent scratches or loss of related parts in the decorati on process, the faucet is found to be as new as before when officially used.

Convenient adjustment: The square box and built-in-level instrument provides convenient horizontal and vertical adjustment during installation while also saving on the time and cost of labor.

Easy maintenance: There's no need to tear down the wall when repairing the valve element in the future, so it's quick and convenient.

Clear identification: Clear identification of water inlet and outlet, together with adjustable installation depth, prevents installation errors and the need for repeated work.

Built-in light strip surround uniform lighting, three-color, Anti-fog and resistant to moisture.

Designed with simple style, it is divided by golden ratio.The storage box is optional and customizable.Using seamless splicing technology, the product has no place for dirt.

Multilayer solid wood panel

The plywood panels are made of 1-3MM thick cross-cross solid wood, which is not easy to deform, compact in structure and waterproof;

Good waterproofness

Thanks to the high panel density and excellent waterproof engineering, it has a low water absorption rate. Even when the water drops to the surface, it will slide down instead of seeping into the panel;

Eco-friendly raw materials

Nine layers of solid core board which complies with the E1 standard plus two layers of triamine veneer, with a thickness of 16mm and wood density. High strength, uneasy to crack, paint-free, and formaldehyde emission in compliance with the E1 standard.

Metal

This metal cabinet in a leisurely style matches the mood of a lazy afternoon.

With a unique slender waist as a design highlight, the toughness of metal is softened with a tender expression for the creation of a space that's warm and stylish.

NC2290W-1 600mm Basin
NP12624K Vanity

Hollow-core design for a balance of beauty and form

Hollowed-out metal imparts a friendly but industrial feeling. The collision of aesthetics and form balances the abrupt forms and beauty of the space, interpreting a distinctive design language.

Unfold line aesthetics

Slender lines and a square cabinet shape, coupled with the semicircular countertop basin, represent the best of today's fashionable bathroom space.

NC2285W-1 750mm Basin
NP12623K Vanity

Storage is a critical CONSIDERATION for urban life

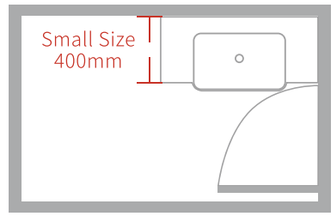
Grüne

The "Grüne" series, with smooth streamlined line design, classic practical size planning and a design philosophy focusing on natural wood grains, blend nature into bathroom furniture, allowing space and nature to complement each other.

Dry and wet separation, ease of handling, large water capacity and a beautiful but practical appearance. Classic, pure and natural, it's the best alternative to a marble or artificial stone countertop.

NC22125W-1 100mm Basin
NM49604X Two Doors

Integrated embedded table basin to tackle the issue of small bathroom insufficient space



Small bathroom space solutions

Simple Japanese style, self-colored to match various bathrooms. Dry and wet separation, ease of handling, large water capacity and a beautiful but practical appearance. it’ s the best alternative to a marble or artificial stone countertop.

Bathroom storage plan

Two-door cabinet allowing options of touching down and wall hanging to meet the needs of different groups of people. Moisture-proof, environmentally friendly plates are safe and reliable, and the concealed double handles make opening and closing more convenient. The stainless-steel cabinet legs are durable. The addition of a mirrored cabinet allows orderly, partitioned storage.

Comes in many sizes, supporting variable combinations and collocations

The small storage trays can accommodate items of different dimensions. The integrated sintered washbasin is easy to be kept clean and shiny. Different bathroom cabinet sizes and functions are available to match various house types and needs. The multi-layered storage functions simplify the process of storage.

Large water capacity, function of overflow prevention on all sides

Integrated design of the undercounter basin with greater width and depth look especially majestic, breathing into the minimalist design a breath of pragmatism. According to the bathroom size, more than 600/700/800mm sizes are available for users to choose from.

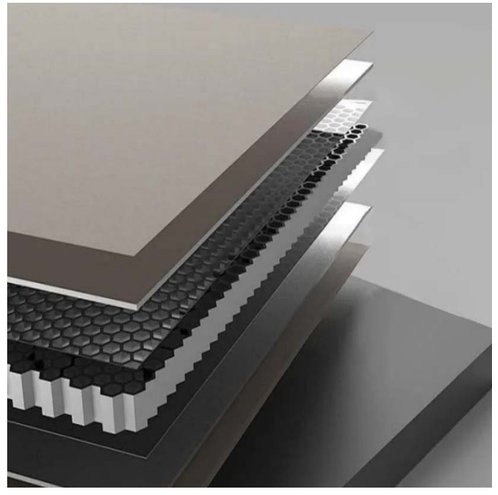
Solid wood structure
It features superior, even texture and elegant veins, high hardness, and naturally high resistance to wear.

Water-proof treatment
Three-step waterproof treatment includes thirteen painting procedures, seven times of grinding, four courses of primer and two courses of top coat. Compared with the traditional painting process used for the furniture industry, the completely water-resistant surface is more suitable for damp bathroom environment.

Storage compartment at the side
The toilet cabinet at the side is at your fingertips, even for children.

Upgrade the internal drawer
Upgrade furnished with small units, equipped with pure wood separated parts, according to the objects in "one word", "cross" drag, meet all kinds of small items neat storage, say goodbye to the filthy.

High-quality wood
With optimal water content ratio, the natural solid wood ensures thickness swelling rate of water absorption lower than 8%, and permanent and durable modeling of the bathroom cabinet.



Aluminum alloy
Aluminum-honeycomb composite panels used in aerospace industry, undergoing special surface oxidation and laminating treatment, are free of discoloration and secondary oxidation. They're also 100% waterproof with easy-to-clean, multicolor surfaces that are waterproof and corrosion-resistant. They're strong but offer a fine feeling in the hand. They're recyclable too, thanks to the environmentally friendly "green" material.
