BATHROOM SOLUTION

The total **bathroom**
solution originated in
precision craftsmanship

As an inheritor of professional design, the spirit of craftsmanship, expertise and perfectionist, and a pioneer of the new aesthetic philosophy of life, we are committed to products that are fashionable and human-friendly. With accurate systems, timely and complete company services, we are a dedicated provider of personalized, multifunctional and elegant bathroom solutions. Always with a commitment to precise craftsmanship, elegant beauty.

A global brand known
for outstanding **quality**

A long-established process of quality and sustainable products and services for many years, projects and designs around the world and a number of high-profile clients, customers and consumers in international markets. We have built a sustainable network that extends to approximately 30 countries and regions worldwide.

Enhance the **beauty of home** with design

CONTENTS

SMART CONTROL COMFORT AT YOUR FINGERTIPS

The innoCi smart toilet series seamlessly integrates advanced technology with energy-efficient concepts to fulfil the demands of the modern bathroom. It provides users with a hygienic, comfortable, and aesthetically timeless experience. By enhancing sensor accuracy and incorporating low-energy standby technology, the series strikes a perfect balance between "technological sophistication" and "energy-saving sustainability." Features such as the smart temperature-controlled seat ring, multi-stage cleaning modes, and an electrolyzed water sterilization system transform every bathroom visit into an enjoyable and refreshing experience.

Automatic flipping for convenient use and sanitation maintenance

With built-in intelligent sensing device, the seat cover will automatically open when you are back. The lid will automatically close after flushing 15 seconds after you leave the toilet to avoid bacteria spreading and keep the toilet clean.

Digital display, non-touch screen interaction

Monitor water temperature, water usage and seat temperature and control various functions. The control area and functions of the main control area are as follows:

Soft seat heating and drying system

The seat cover is equipped with a heater after flushing. And equipped with a microchip to control the 4500 turns of the heater.

A new generation of power pump

Large pump power and discharging fast away all unwanted stuff at a time.

Seat cushion with intelligent temperature control to prevent low temperature burning. Adaptive temperature sensing provided with a range of temperature (2, 34, 36, 38, 40, 42, 44) temperature control with good energy consumption.

Rotate 360° to spray to create a layer of foam on the water seal of the seat, which can effectively prevent water splashing, sticking, bacteria and odor. The foam can be kept for up to 6 hours, making the bathroom clean and healthy.

Antibacterial one

The antibacterial material can control more than 99% of bacteria, which will effectively control the growth of bacteria. In addition to being strong and durable, it can also resist odors. After the antibacterial material is applied, it can provide 100% antibacterial effect for a long time.

Two heavy cleaning glass brushes at 12000 RPM clean your system. Roll and scrubbing to get rid of any dirt in your bowl.

Intelligent cleaning technology
Free your hands completely

Solutions for regions with a low water pressure

There is a power pump in the low water tank with foam disinfection function, which can meet the extremely low water pressure conditions ($\geq 0.07\text{MPa}$).

Rinse 360° to spray to create a layer of foam on the water seal of the toilet, which can effectively prevent water splashing, staining, bacteria and odor. The foam can be kept for up to 6 hours, making the bathroom clean and healthy.

Upgraded two-stage flushing system

HANSON BATHROOM SOLUTIONS

Remote control of intelligent technology

Flushing solution for power failure

The ultimate integration of technology and energy-saving, environmental protection concepts, coupled with tank free design, with rotary button for flushing, remote control for single- and double-stage water-wash, remote control intelligent flip cover and other different functional models to meet users' needs.

Power failure protection
and automatic flush

Child-Proof Lock for
safe use

Female Care: The warmest
care for women

Self-cleaning: To prevent and treat
diseases with hot & cold washing

Water-saving
flushing system

Water-saving: Separate waste
water and hygiene

Water-saving:
Toilet is clean and dry

Water-saving: Different
positions can be cleaned

Warm Air: The warm air
drying, make the warm air

Soft water: Soften water
flow with clean flush

Light: Light
Make the environment of light

Heating seat

FM1300SW-2
V9840000mm

Auto & remote control water cover

Intelligent all-in-one machine
without water tank

Intelligent one-button knob upgrade

Forward/Back rotation 2 times for automatic reciprocating
cleaning for wisdom/health

Eco-friendly flame retardant PP material

Heated seat with three adjustable temperature settings

The antibacterial glaze ceramic body

Have easy-cleaning glaze free of any residual bacteria, making
usage more worry-free

Siphon jet technology

Vortex flushing technology: the first water forms vortex water
and speeds up the siphon effect. The second jet will quickly
flush the dirt on the pipe, saving water, environmentally
friendly, and producing low noise

Vortex siphon flushing: making
cleaning and care more convenient
Flushing solution for power failure

Warm Air

Instant heating technology: providing instant use without waiting

Automatic flush for off-seat

Space flush button

This wall-mounted smart toilet features a pressure-assisted flushing system that delivers powerful, consistent performance regardless of water pressure. A proximity sensor lid, foot-activated seat ring, and auto flush on departure create a truly touch-free experience, minimizing hand contact and reducing germ transfer.

Designed for installation flexibility, it supports rear-to-floor conversion with an S-trap adapter and accommodates rough-in distances of 150-250 mm.

Low-profile tank A combination of modern and classic design

The series of toilets, featuring low-profile tanks, is an upgrade from the traditional design. Classic style with oversized low-profile tanks are designed to reduce hyperacute dead angle at the joints, making it easy for cleaning and maintenance; right-side flushing button, super-long seat ring and other details conform to different use habits.

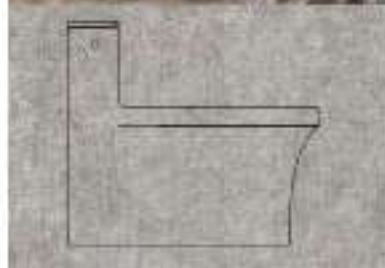

Side single section flushing

Right side single-section flushing enabling discharge in one step, quick-removal seat cover so easy to cover that even girls can handle it easily. The intelligent seat cover can be matched.

Low tank siphon technology

A large flushing seat and powerful flush force can discharge in one step.

Wall Mounted Toilet

The wall-mounted design keeps the toilet elevated, preventing dirt accumulation on the floor. It features a slow descent seat cover and fully glazed bowl, along with a dual flush system for effective and efficient cleanliness. Its compact 500mm size makes it an ideal choice for smaller bathrooms, maximizing space while offering superior functionality.

Automatic induction flushing features quick and sensitive response

The whole glass, smooth and round without any blind angles, is very easy to clean and maintain

Diversion design and desirable flushing effect

Small, intelligent sensor urinal

Form and full shape is designed as delicate and sleek, it is a well made functional product and a visual appreciation product.

NC 2099A
123x275x330mm

Built-in automatic electronic induction flushing device, plus white jet flushers.

Downward sloping, ensures a better flushing effect.

Freestanding Urinal with Rear Water Inlet

This freestanding urinal features infrared smart sensing technology, activating the water flow upon approach and automatically initiating the flush when the user leaves. The splash panel's every-on-chase design ensures precise water flow control and prevents splashing, while the wall-mounted installation maximizes space utilization and eliminates any exposed fluid joints, creating a clean and efficient bathroom solution.

As nature and fashion encounter, the pastoral, classical beauty of nature is unfolding. The perfect marriage of traditional essence of the East and the comfortable life of northern Europe fills the bathroom space with natural and gentle feelings.

FAUCETS

Eye-catching parts of the bathroom

We deliver inspiration from life and combining technical know-how, design concept and advanced technology in the industry, you design, ensure that the bathroom hardware products are highly suggestive of great ambience. A combination of looking products in different houses and bathrooms of different style attracts special.

Pero 2

The 180° vertical shower arm allows total freedom for any position. Spray at high or low pressure, a soft, gentle hot water flow, while full temperature control and pressure adjustment. The versatile mixer is compatible with bidet, bidet tub, and shower pans multiple setting, offering a new level of modern design that enhances the bathroom's overall look and feel.

Waltz 1

Chrome, matte black, titanium grey, gold sand, brushed satin nickel and rose gold.

Titanium Grey

Titanium grey of metal texture and a dark grey metallic layer after an oxidation of the surface of new special color system.

Gold Sand

A color illustration nobility the most, gold sand suggests a tone of warmth and elegance; application of earth tone marks a departure from the stereotyped gold. Light luxury sand gold highlights the personality in a low-key manner, adding a touch of nobility to the bathroom.

American style casual luxury highlights your fashion sense in the simple white bathroom space, indicating the personality and taste of the bathroom owner in a low-key, humble manner.

Improve your happiness
from the details.

Matte Black

High-grade matte black, smooth and fine to touch, low surface reflection rate, soft light sense, not dazzling, presenting a sense of classy and elegant.

WTC2004

Creative and ingenious design of faucets and water bars infusing communication in flow, breathing energy into your bathroom like life in black.

Lead-free Brass

Faucet for this system is made of lead-free copper of German standards. With content of precipitated lead lower than 5 µg/L and no lead detected in water, it complies with the strictest European and American standards and keeps water supply healthy.

Micro-scaled Plating Technology

Faucet's ceramic surface plating technology Ni-32kV (12-0.15µm) enables coated metal parts to effectively pass the 48-hour salt spray test and maintain its clean, smooth and bright appearance.

Water Saving Technology

WaterStop (TM) concealed bubble, equipped with 8 layers of special hexagonal drains to filter out foam water, prevents leak and smooth water supply and reduces splashing, capable of supplying water at a rate of 6.5 L/min. It is water conserving, environmentally friendly and easy to clean and maintain.

Thickened ceramic valve

Valve is the heart of a faucet, standing half a million switch fatigue tests, more than three times stronger than normal valve. Even used 50 times a day, it can last 15 years, and still remains flexible and smooth.

Rain Shower

A multifunctional rain shower set includes one rain shower head (10" to 16") and a large handheld shower. Its external connection structure helps reduce installation time, and the clever combination of the tap and external shower head mimics the enjoyable feeling of a rain shower on a summer day.

The valve is made of DZR corrosion-resistant brass, ensuring that the water tap will be durable.

In-wall control

- Effective protection:** A pre-embedded box to prevent scratches or loss of related parts in the decoration process; the faucet is found to be as new as before when difficultly used.
- Convenient adjustment:** The square box and built-in level instrument provide a convenient horizontal and vertical adjustment during installation while also saving on the time and cost of labor.
- Easy maintenance:** There's no need to tear down the wall when repairing the valve element in the future, so it's quick and convenient.
- Clear identification:** Clear identification of water inlet and outlet, together with adjustable installation depth, prevents installation errors and the need for repeated work.

Explore different ways of washing up

The design of the pedestal sink is inspired by the pursuit of nature and draws on the gifts of nature, as it encourages you for the exploration of different ways of washing up.

Rain Drop Style Counter Ceramic Basin

The application of glaze on all sides and the circular internal cavity design makes it easy for cleaning and use. While ensuring full functionality, it also enhances the environment with its attractive appearance.

Single Bathroom Vanity
2400mm (78.7")

Designed with simple style, it is divided by golden lines. The storage box is optional and customizable. Using seamless joining technology, the product has no glue joints.

Multilayer solid wood panel

The plywood panels are made of 1.38M thick precision solid wood, which is not easy to deform, compact in structure and waterproof.

Good waterproofness

Thanks to its high panel density and excellent waterproof engineering, it has a low water absorption rate. Even when the water drops to the surface, it will slide down instead of seeping into the panel.

Eco-friendly raw materials

Five layers of solid wood board which complies with the E1 standard plus two layers of flame-retardant, with a thickness of 12mm and wood density. High strength, resistant to crack, pest-free, and formaldehyde emission in compliance with the E1 standard.
