BATHROOM SOLUTION

The total **bathroom solution** originated in precision craftsmanship

As an inheritor of professional design, the spirit of craftsmanship, excellence and European artistry, and a promoter of the minimalist philosophy of life, Innot is famous for products that are fashionable and human-friendly. While ensuring hygiene, health and comfort, the company has established itself as a dedicated provider of personalized, multifunctional and integral bathroom solutions, always with a commitment to a more fashionable, elegant lifestyle.

A global brand known for outstanding **quality**

A long-established provider of quality and satisfactory products and services for many real estates, projects and designers around the world and a winner of high praises from the customers and consumers in international markets, Innot has built a sales/service network that extends to approximately 50 countries and regions worldwide.

Enhance the
beauty of home with design

Thoughtful Design

CONTENTS

SMART CONTROL COMFORT AT YOUR FINGERTIPS

The InnoC smart toilet series seamlessly integrates advanced technology with energy-efficient concepts to fulfill the demands of the modern bathroom. It provides users with a hygienic, comfortable, and aesthetically timeless experience. By enhancing sensor accuracy and incorporating low-energy standby technology, the series strikes a perfect balance between "technological sophistication" and "energy-saving sustainability." Features such as the smart temperature-controlled seat ring, multi-stage cleaning modes, and an electrolyzed water sterilization system transform every bathroom visit into an enjoyable and refreshing experience.

Intelligent cleaning technology Free your hands completely

Automatic flipping for convenient use and sanitation maintenance.

With built-in intelligent sensing device, the seat cover will automatically open when you are near. The lid will automatically close for flushing 15 seconds after you leave the toilet to avoid bacteria splashing and keep the toilet clean.

Digital display, man-machine interaction

Monitor room temperature, water temperature, seat temperature and content of foam... in real time. The performance and conditions of the machine are clear at a glance.

Soft and warm-air drying system

Dry with warm air at a constant temperature after cleaning. Dual activated carbon deodorization fan to prevent the odor from spreading to the bathroom.

A new generation of power pump

Large pump power and ultrastrong flush away 20 simulated stools at a time.

Seat cushion with intelligent temperature control to prevent low-temperature burning.

A built-in temperature sensor is provided with 4 levels of temperature (0, 34, 36, 38, 40). VF temperature control, intelligent energy conservation.

Rotate 360° to spray to create a layer of foams on the water seal of the toilet, which can effectively prevent water splashing, sticking, bacteria and odor. The foams can be kept for up to 6 hours, making the bathroom clean and healthy.

Antibacterial seat

The antibacterial materials used can kill more than 99% of bacteria, which will effectively prevent the growth of bacteria. In addition to being strong and durable, it can also resist detergents. Silver ion antibacterial constituents are provided both below and above the seat ring.

Nano easy-cleaning glaze

Sintered at 1250°C, the nano glaze is gapless, flat and smooth, making it uneasy to absorb dirt.

Solutions for regions with a low water pressure

There is a power pump in the low water tank with foam disinfection function, which can meet the extremely low water pressure conditions ($\geq 0.07\text{Mpa}$).

Rotate 360° to spray to create a layer of foams on the water seal of the toilet, which can effectively prevent water splashing, sticking, bacteria and odor. The foams can be kept for up to 6 hours, making the bathroom clean and healthy.

Remote control of intelligent technology

Flushing solution for power failuer

ENC2165GW-2
698MM/2800mm

Auto & remote control seat cover

Self-cleaning, antibacterial glass

Child Mode: Care for delicate skin

Period Care: The warmest care for women

SPA: To prevent and treat diseases with hot & cold washing

Continuous heating of water

Widet: Separate nozzle, clean and hygienic

Menstr: Personal cleanliness

Reciproating: Different position can be cleaned.

Warm Air: The warm air drying, make the warm air

Mixed air: Softer water flow with clean flush

Night- Light: More convenience at night

Heating vent

Intelligent all-in-one machine without water tank

The ultimate integration of technology and energy-saving environmental protection concepts, coupled with tank free design, with rotary button for flushing, remote control for single- and double-stage water-exit, remote control intelligent flip cover and other different functional models to meet users' needs.

EW1165W-3
690*420*596mm

Intelligent one-button knob upgrade

Forced back rotation 2 times for automatic repositioning cleaning for women/men

Eco-friendly flame retardant PP material

Heated seat with three adjustable temperature settings

The antibacterial glaze ceramic body

Hard easy-cleaning glaze free of any residual bacteria, making sewage more smoothly

Siphon jet technology

Vortex flushing technology: the first water forms vortex pool and speeds up the siphon effect; the second jet will quickly flush the dirt into the pipe, saving water, environmentally friendly, and producing low noise.

Warm Air

Infrared heating technology enabling instant use without waiting

Automatic flush for off-seat

Spurs flush button

Multi-color surface

At Innot, besides surface treatment with chrome color, there are also other options such as matte black, titanium grey, gold sand, Brushed Satin Nickel and rose gold, etc.

Mirror-sided Plating Technology

Nickel-chromium surface plating technology (Ni $\geq 8\mu m$, Cr $\geq 0.25\mu m$) enables coated metal piece to effortlessly pass the 48 hour salt spray test and maintain its sheen even in humid bathrooms.

Neoperl water Oxygen-rich water-giving technology

Rich-oxygen bubble, soft water giving

Innot uses Seals Neoperl bubbler. Quality honeycomb nozzle filtering impurity layer by layer; water giving with water and oxygen mixed, giving comfortable touch, while the gentle spray does not splash.

Lead-free Brass

Faucet for the system is made of lead-free copper of German standards. With content of precipitated lead lower than 5 $\mu g/L$ and no lead detected in water, it complies with the strictest European and American standards and keeps water supply healthy.

Precision ceramic valve element (Germany) precision copper valve element; it has a service life of more than 500,000 times. Over 20 years for a normal household (50 times per day).

Water Saving Technology

Neoperl (Dats) concealed bubbler, equipped with 6 layers of special honeycomb straining to filter dirt from water, ensures fine and smooth water supply and reduced splashing, capable of supplying water at a rate of 4-5 L/min. It is water conserving, environmentally friendly and easy to clean and maintain.

(shower/sprayer hose not included)

Your private pleasures stem from the small changes of every 1-in-1. Changes to any detail make the space lovely, relaxing and drive away boredom.

Rain Shower

A multifunctional rain shower set includes one rain shower head (10" to 18") and a large handheld shower. Its external connection structure helps reduce construction time, and the clever combination of the tap and external shower head mimics the enjoyable feeling of a rain shower on a summer day.

The valve is made of DZR corrosion-resistant brass, ensuring that the water tap will be durable.

In-wall control

- Effective protection:** A pre-embedded box to prevent scratches or loss of related parts in the decoration process, the faucet is found to be as new as before when officially used.
- Convenient adjustment:** The square box and built-in level instrument provides convenient horizontal and vertical adjustment during installation while also saving on the time and cost of labor.
- Easy maintenance:** There's no need to tear down the wall when repairing the valve element in the future, so it's quick and convenient.
- Clear identification:** Clear identification of water inlet and outlet, together with adjustable installation depth, prevents installation errors and the need for repeated work.

Built-in light strip surround uniform lighting,
three-color, Anti-fog and resistant to moisture.

Designed with simple style, it is divided by golden ratio. The storage box is optional and customizable. Using seamless splicing technology, the product has no place for dirt.

Multilayer solid wood panel

The plywood panels are made of 3-5MM thick cross-cross solid wood, which is not easy to deform, compact in structure and waterproof.

Good waterproofness

Thanks to the high panel density and excellent waterproof engineering, it has a low water absorption rate. Even when the water drops to the surface, it will slide down instead of seeping into the panel.

Eco-friendly raw materials

Nine layers of solid core board which complies with the E1 standard plus two layers of birch veneer, with a thickness of 18mm and wood density. High strength, no easy to crack, paint-free, and formaldehyde emission in compliance with the E1 standard.

Enhance the beauty of home with design

Durable and resistant to deformation. Considerate two-door inside drawer design for effective use of space; personalized combination cabinet to fit different using habits; reasonable classification and storage to make washing easy and comfortable.

Metal

This metal cabinet in a leisurely style matches the mood of a lazy afternoon.

With a unique slender waist as a design highlight, the toughness of metal is softened with a tender expression for the creation of a space that's warm and stylish.

NC2290W-1 600mm Basin
NP12624K Vanity

Hollow-core design for a balance of beauty and form

Hollowed-out metal imparts a friendly but industrial feeling. The collision of aesthetics and form balances the abrupt forms and beauty of the space, interpreting a distinctive design language.

Unfold line aesthetics

Slender lines and a square cabinet shape, coupled with the semicircular countertop basin, represent the best of today's fashionable bathroom space.

NC2285W-1 750mm Basin
NP12623K Vanity

Grüne

The "Grüne" series, with smooth streamlined line design, classic practical size planning and a design philosophy focusing on natural wood grains, blend nature into bathroom furniture, allowing space and nature to complement each other.

Integrated embedded table basin to tackle the issue of small bathroom insufficient space

NC2212SW-1 100mm Basin
NM49604X Two Doors

Small bathroom space solutions

Simple Japanese style, self-colored to match various bathrooms. Dry and wet separation, ease of handling, large water capacity and a beautiful but practical appearance. It's the best alternative to a marble or artificial stone countertop.

Bathroom storage plan

Two-door cabinet allowing options of touching down and wall hanging to meet the needs of different groups of people. Moisture-proof, environmentally friendly plates are safe and reliable, and the concealed double handles make opening and closing more convenient. The stainless-steel cabinet legs are durable. The addition of a mirrored cabinet allows orderly, partitioned storage.

A NC22148W-1 600mm Basin
NM45801X Two Doors
B NM15503X 550mm Mirror

Comes in many sizes, supporting variable combinations and collocations

The small storage trays can accommodate items of different dimensions. The integrated slanted washbasin is easy to be kept clean and shiny. Different bathroom cabinet sizes and functions are available to match various house types and needs. The multi-layered storage functions simplify the process of storage.

Large water capacity, function of overflow prevention on all sides

Integrated design of the undercounter basin with greater width and depth look especially majestic, breathing into the minimalist design a breath of pragmatism. According to the bathroom size, more than 600/700/800mm sizes are available for users to choose from.

Storage is a critical consideration for urban life

Simple and classic modern design, and the classic combination of child-mother drawers throw light on the relaxing, fashionable bathroom life. One door and two draws, the product of classic combination design, coupled with a waterproof U-shape groove suggestive of sports, ensure comfortable use and improved storage function. The top guiding rail, safe and durable, capable of silent opening and closing, ensures a space that's quiet and comfortable.

Solid wood structure
It features superior, even texture and elegant veins, high hardness, and naturally high resistance to wear.

Water-proof treatment
Three-step waterproof treatment includes thirteen painting procedures, seven times of grinding, four courses of primer and two courses of top coat. Compared with the traditional painting process used for the furniture industry, the completely water-resistant surface is more suitable for damp bathroom environment.

Storage compartment at the side
The toilet cabinet at the side is at your fingertips, even for children.

Upgrade the internal drawer
Upgrade furnished with small units, equipped with pure wood separated parts, according to the objects in "one word", "cross" drag, meet all kinds of small items neat storage, say goodbye to the filthy.

High-quality wood
With optimal water content ratio, the natural solid wood ensures thickness swelling rate of water absorption lower than 8%, and permanent and durable modeling of the bathroom cabinet.

Aluminum alloy
Aluminum-honeycomb composite panels used in aerospace industry, undergoing special surface oxidation and laminating treatment, are free of discoloration and secondary oxidation. They're also 100% waterproof with easy-to-clean, multicolor surfaces that are waterproof and corrosion-resistant. They're strong but offer a fine feeling in the hand. They're recyclable too, thanks to the environmentally friendly "green" material.

Mirror cabinet

Huge storage space is designed into multi-layer compartments; inside and outside drawers are designed to hold miscellaneous articles; facing door plank of different styles can fit bathrooms of different decoration styles.

Mirror Cabinet with LED

A double door in mirror cabinet, along with LED light, socket and multifunctional rack make installation extremely easy.

Lens has the characteristics of uniform film layer that is firm and durable. The mirror is clear, and the light reflected by the lens soft and natural. Provide real and non-deformed images.

DREAM BATHTUB

For a joyful body and mind, get the bathtub that understands you better

Shut out the noisy world and take a bath. Enjoy your leisure and wash away all your concerns and troubles. Joyful body and mind call for a suitable bathtub. Series of bathtubs of Innod, with the structural design allowing different water outlets, the collocation ranging from Independent bathtub faucet to waterfall outlet, black, gold and other leading series selection, are an important element that personalizes bathroom combination.

Arc

Adjust the settings on the hidden central panel easily while you are lying comfortably in the tub, enjoying precious time for yourself.

NB25802TW-1W
1800x900x650mm

The inside of the tub is perfectly curved according to the human form, supporting the back and helping relieve stress. Say goodbye to fatigue, and let relaxation soak into your bones. It's an enjoyment for every day.

SEAMLESS JOINT

The use of seamless joint technology realises the perfect combination of bathtub body and panel, thus endows the simple but fashionable appearance.

With bubbles all around, you can enjoy your bath as soothing massage.

Project Reference

Innod's stylish and minimalist design perfectly meets the material requirements of numerous high-end engineering projects. Its products are sold in nearly 90 countries and regions worldwide. Choosing Innod not only maintains the high-quality living tone of the overall project, but also greatly enhances the user experience in terms of both aesthetics and functionality.

Project Reference

Intelligent Production Base

The Inroad production facility covers almost 667 million m². Armed with bathroom full-category independent production lines, a type-12 high-pressure stool line, German feedhammer tunnel kiln, Australian general shuttle kiln and other cutting-edge equipment, the company has CNC, FPC, nano self-cleaning, nanocoating and other production technology, boasting productivity and technology of the highest standards. The company has proudly seen its products pass quality processes under many international authorities, including the German TÜV ISO certification, the Satec SRS, the Royal UKAS certification, the Singapore WELS certification, the Australian Water Mark water-saving certification and the IAF.
